THE NEW NORMAL IN HOME AUTOMATION

granteq
smart homes

Granteq Smart Homes coordinates the technology in your life into complete, brilliant experiences and interactions that fit your lifestyle and are easy for your family to enjoy. With one touch, dim the lights, play music, turn up the heat, lock the doors and arm the security system. Or, have your house respond to your schedule and needs without touching anything at all. There are many smart devices available today; TVs, thermostats, door locks, even light bulbs that you can control with apps on your smartphone.

Granteq Smart Homes orchestrates more than 9,000 of your favorite connected devices, making all the apps and solutions work together seamlessly. And that is when your home truly becomes smart. Granteq Smart Homes coordinates virtually all the connected devices in your home to create a personalized experience with solutions that maximize your comfort, convenience, entertainment and peace of mind. And with the help of Granteq, it's easy to update and adapt your home to your changing needs today and in the future.

*Welcome to a smarter living experience.
We call it the New Normal.*

ENTERTAINMENT

Enjoy your favorite music and video in just one room or in entire home. Simplified Family Room Entertainment

it's time to elevate your family room entertainment experience. With a single remote, you can control virtually everything in your media cabinet. It's an affordable and fast way to experience the New Normal.

- » Enjoy music and video from a variety of sources.
- » A singular, easy-to-use interface lets you do it all... watch TV, access your movie collection, stream video, power up a video game, or enjoy your entire music library.
- » All of the content you love is at your fingertips, from DVD movies to satellite TV, in stunning, 4K high-definition and surround sound.
- » Easily integrates with popular products and services such as Roku, Apple TV, Amazon Fire, Netflix, Hulu and more.
- » Dim the lights without ever leaving the couch.

Jaw-dropping Home Cinema

Audio, Video, Lighting & Much More

Design a jaw-dropping home cinema that rivals any cineplex by incorporating immersive high-resolution audio, high-definition video, best-in-class surround sound, an enormous smart TV or projection screen, and customized lighting to complete the experience.

- » Watch video from multiple sources, including media players, hard drives and portable devices—or browse through them all simultaneously.
- » Hide all of your equipment in a closet and control everything with a single, easy-to-use remote or elegant touch screen.
- » Enjoy smart lighting throughout the room that dims when you press “play” and ramps back up when you press “pause.”
- » Incorporate special lighting features, like pathway lights and starry-night ceilings.
- » Control your whole home from the theater, including adjusting the room temperature or seeing who is at the front door, without leaving your seat.

1 ROOM? 2 ROOMS? EVERY ROOM?

Music at Your Fingertips Immersive Multi-Room Audio

Change the way you listen to music—forever. Fill your entire home with music or listen to a specific playlist in just one room. You'll appreciate the flexibility to enjoy high-resolution music, your way. With our solutions, your interaction with music is visually stunning. Album cover art is boldly showcased and it's easy to locate your favorite artists and track information on your smartphone, touch screen or TV.

- » Enjoy access to millions of songs and thousands of artists through popular streaming services—such as Pandora, TIDAL, Deezer, Rhapsodey, TuneIn, and iTunes—without need for extra gear.
- » Play classical in the den, jazz in the kitchen and rock in your kids' room, all at the same time.

- » Send music from virtually any source, including your smartphone or tablet, to any room in your house. You can even allow your guests to stream their own music collection from their portable devices.
- » Manage the volume, start or stop music and even control your lights with a single tap.

VIDEO IN EVERY ROOM

Simple, Clean & Clutter-Free Simplified Multi-Room Video

Distribute video throughout the house so that you can enjoy beautiful, 4K high-definition content in every room without adding clunky gear and wiring behind each TV. With multi-room video, everyone can enjoy the same movie or watch what they want, wherever they want. Share your entire movie library, streaming video and satellite channels throughout the home

- no need for set-top boxes and multiple video sources in every room. Consolidate all of your audio and video equipment into a closet, creating a clutter-free installation, while delivering superior sound, stunning 4K high-definition video and an incredible experience in every room.

- » Browse your movie library and video streaming services from anywhere in the house.
- » Watch sports in the den, the news in the kitchen and kids movies in the family room. Each room has access to every video source and an intuitive; on-screen interface makes it easy to select the right one.
- » Instantly share new content as your library expands or you add video sources throughout the home.

SMART LIGHTING

Inside Your Home & Out in the Yard

Smart lighting brings elegance, ambiance, convenience and energy efficiency to your whole home.

Smart lighting is one of the biggest opportunities for you to subtly, but effectively, influences the ambiance of your home and complements the aesthetics of its decor. You can turn on the entire room - or multiple rooms - with a single light switch, and dim illumination to whatever level you desire.

And if you don't care for the banks of switches on your wall, your lighting controls can be centralized elsewhere, such as in a closet, to avoid distracting from the style of your home. Smart lighting is both beautiful and energy efficient. Your lighting automatically turns on when you need the light, but turns it off when no one is in the room.

- » Have the lights in the house turn on automatically to welcome you home.
- » Use motion sensors to provide hands-free illumination.
- » Program the lights to shut off automatically when a room is unoccupied.
- » Use keypads to trigger more than just lights, including music, shade control, and energy settings—with a touch of a button.
- » Illuminate the hallway lights automatically for safe entry, as soon as you enter the garage.
- » Have your outdoor lighting turn off in the morning, and turn on as the sun goes down.
- » Make your home sophisticated enough to appear to be occupied even when you're away.

COMFORT & CONVENIENCE

Enjoy a consistently comfortable and inviting home that automatically responds to your life and maximizes energy savings.

Smart, Comfortable and Convenient - Climate Control
That's Smart & Energy Efficient

Being comfortable encompasses more than just adjusting the temperature. Control humidity levels, automate shades, power on the hot tub on your way home, and program your entire house for maximum energy efficiency. Our solutions works with the world's leading brands, so it's easy to integrate your automation system with radiant flooring, forced air, dual fuel and geothermal systems.

- » Wireless thermostats maintain consistent temperature and humidity control, regardless of the time of day or season.
- » Enjoy personalized comfort settings that can be recalled on a schedule or with just a few taps on your phone or touch screen.

» Pool and spa controls make it easy to turn on the heat, set the temperature or crank the jets instantly, right from your smartphone.

» Fireplace sensors are easily controlled from any device within the home. Press the customized "Romance" button and enjoy.

» Program your window shades to lower during the hottest hours of the day, saving on air conditioning costs.

» Automate your sprinklers and lawn systems to respond to weather conditions.

CONVENIENT COMMUNICATION

Inside Your Home

High-Definition Video Intercom

Whether you want to see who is at the front door, check in on your sleeping baby or call everyone to the table for dinner, it's simple and convenient with video intercom. With an incredibly fast connection speed and high-definition clarity, all of this functionality is automatically enabled n every touch screen in our Smart Home solution.

- » Replace your doorbell with an elegant Door Station to see who is at the door without getting off the couch.
- » Get a complete view of the front porch with alternate camera views.
- » Call any touch screen within your home, whether to check in on the kids or bring everyone together.

SAFETY & SECURITY

Intelligent security gives you peace of mind knowing your family is safe and secure.

Peace of Mind - While Home or Away

Safe and Secure Check in on things at home from wherever you are. Receive alerts when someone enters the house, the garage door is left open, or a leak is detected in the basement. Intelligent security puts peace of mind at your fingertips so you can rest assured that all is safe.

- » Lock every door and arm the alarm, all with a single touch directly from an intuitive user interface on a touchscreen, TV or mobile device.
- » Check on the kids, whether you are downstairs or downtown.
- » View the video feeds from your security cameras. Using the Mobile App, you can easily monitor camera footage straight from your mobile device.
- » Receive a text alert when the system senses trouble, including water leaks or to simply let you know the kids arrived home from school.
- » Assign temporary security codes for deliveries and service workers.
- » Randomize lights and audio/video equipment to make it look like you are home, even when you're not.

COMMERCIAL SOLUTIONS

Automation means better business

Rely on a trusted solution to control lights, temperature, audio/video, teleconferencing, security cameras, and HVAC systems to make your business more effective and drive efficiency, automatically. Even the smallest commercial automation projects deliver a big bottom-line impact. Our solutions easily integrate with your existing business infrastructure and enable communication between devices from virtually any manufacturer.

Granteq will work with you to design a system to transform your business and impress your clients or customers. With our solutions you decide what you want to control and when. The possibilities are endless.

- Control a wall of TVs or just one with a single remote or tablet.
- Control music in any audio zone, from anywhere.
- One button turns off all the lights throughout the property.
- Get a text alert if someone enters after hours.
- Save energy and money, automatically.
- Presentation set-up and video conferencing, with one touch.
- Use touch screens and tablets to control it all, easily.
- Access and control security cameras from anywhere.

AUTOMATION FOR HEALTHCARE

Improve the patient experience and your bottom line

Savvy medical and dental professionals are using home automation systems to provide a better patient experience while improving efficiencies in the office, saving energy, streamlining communications and controlling sensitive security areas. Automation can transform your office in a number of ways.

- Relax and entertain patients by letting them select music or movies during their visit, resulting in a better patient experience.
- Automatically set lighting scenes for different procedures, increasing operational efficiency and employee satisfaction.
- Set lights to turn off when patients or staffs leave rooms to save on energy bills.
- Notify staff when procedures are complete with lighting alerts.
- Use a single "Good Night" or "Good Morning" button to turn the building off or on, keeping energy bills low.
- Turn every TV on and set them to a default preferred channel with one button.
- Receive e-mail alerts based on security-related actions; for example, when a door or cabinet is opened or the security system is triggered. This will reduce loss from theft.
- Check on the office from your smart phone or tablet, from anywhere.
- Lock the whole building in one touch, giving you peace of mind and protection.

AUTOMATION FOR BAR OR RESTAURANT

With just one touch, you can create the perfect atmosphere in every area of your restaurant with mood lighting and music. Control every TV from one location so your customers never miss the big play. With automation, the possibilities are endless.

- Incorporate your lights, music and climate into a "scene" that cues the perfect ambience and gets everyone in the right mood.
- Have the lights turn off when employees or guests leave rooms to save on energy bills, automatically.
- Use a single button to turn the building off or on, keeping energy bills low.
- Control a wall of TVs from a central location so that your customers get to watch what they want, when they want it.
- Simplify your audio, video, and other components with one remote to control it all.
- Control and feed a high-end audio system for dancing or ambient music.
- Treat your audio and video as separate systems with the ability to join them easily when required.
- Easily move video around and break audio from video to play in different zones.
- Receive e-mail alerts based on security-related actions, for example when a door or window is left open or the security system is triggered.
- Use IP cameras to keep an eye on your business, no matter where you are.

AUTOMATION FOR OFFICES - CONDUCT MEETINGS WITH CONFIDENCE AND MUCH MORE..

In an automated boardroom or conference room, lower a screen, dim the lights, connect to an office from another continent, turn on a projector or display your presentation in one touch. Our system eliminates all the technical headaches and allows you to get down to business.

- Select the setup of the room with the touch of a button...conversation, presentation, video conference and more.
- As soon as the lights dim, the shades go down to create the perfect atmosphere for your presentation.

- Modify the backlighting, select which PC to display on the projector, bring up the volume to the perfect level, all with one touch, reducing calls to your IT department for assistance.

- Impress your colleagues, customers and partners with one-touch scenes that dim or raise the lights, and change the background music.

- Integrate audio and video-conferencing systems into one easy-to-use experience.

- Choose to manage the system from an elegant touch screen or an app on your tablet or smart phone.

Automation means better business.

We partner with certified system designers and integrators who share our vision and passion for excellence. The combination of their professional expertise with our award-winning solutions can enhance your business operations and impress your clients and customers. Discover what our automation can do for you.

HOW IT ALL WORKS TOGETHER

Just a few automation products can deliver a dramatic difference for your business. Better still, our solutions seamlessly integrate with third-party systems and applications, including locks, IP cameras, video-conferencing systems, shades and more to bring control to your business.

CONTROLLERS

The “brains” of the operation, controllers provide the behind-the-scenes management of all intelligent devices in the room.

THERMOSTATSWIRELESS

Our thermostats make it effortless to control temperature based on business hours or outside climate. No sense powering on the AC without dimming the shades when the sun is bright.

TOUCH SCREENS

Sleek in-wall or portable touch screens make it easy for your employees to control the system. With access control, you can make sure the designated staff has that control, while others do not.

SYSTEM REMOTE CONTROLS

With an OLED backlit display, the SR-250 remote gives employees wireless, walk-around control of every TV.

2, 3 OR 6-BUTTON KEYPADS

Customize control features that offer one-touch convenience: “All Off,” “Lunch,” “Weekend,” or “Meeting Commence.”

DIMMERS & SWITCHES

Reduce utility bills, extend bulb life, conserve resources, and provide the convenience of pre-set, one-touch lighting scenes.

MOTION & CONTACT SENSORS

Automatically manage energy effectively and efficiently with more accurate occupancy control.

WIRELESS MUSIC BRIDGE

Controls the music across the premises.

PRODUCTS

From elegant one-touch lighting to sleek touch screens, our products create intuitive automation solutions for your smart home.

Interfaces

Your Smart Home will most likely rely on a variety of interfaces, each one designed for simple and easy access to the features you use most. It may be as simple as a remote control for your audio/video experience, a touch screen to browse your movies and music, a keypad that replaces many different light switches, or your mobile device or tablet while you're in the back yard or away from your home.

Platform

You can consider the controllers as the brain, or even the operating system, of your smart home. They manage your entire home automation system in the background, allowing the devices in your home to work together—from lighting and security to music and video, and pretty much anything else in between

4Sight™ with Anywhere Access

4Sight provides secure mobile access to your home while you're away. 4Sight lets you monitor your cameras, lock the doors, adjust the temperature, close the garage door, and even turn on lights to welcome you home. Available on Android and iOS smartphones and tablets

Entertainment

Our amplifiers, 4K audio and video matrix switches and system remotes deliver exceptional entertainment experiences in your home. We integrate with leading brands such as Sonos, Apple TV, Roku and so much more, ensuring your automation system works with the products you already have and love.

Smart Lighting

Whether for a new home or upgrading an existing home, our lighting dimmers and switches are elegant and energy efficient, and with a variety of colors and finishes, they complement the decor of any home.

Comfort and Convenience

The Wireless Thermostat consistently delivers the right level of comfort in your home, and Granteq can integrate shades, pool and spa control, and fireplace switches to bring a new level of comfort to your smart home. Door Stations keep you connected with guests at the front door or entry gate.

Safety and Security

By integrating with the leading brands in security cameras NVRs, smart locks and sensors, you can monitor your house 24x7 and be notified immediately if a door opens the water heater leaks or if you left the garage door open.
